

## Designers and manufacturers of industrial and audio/visual controllers in Australia

### NEW! T455 1 to 3 Serial expander

Takes an RS232 serial input from any system, eg an AMX, Crestron, Extron controller and expands it to drive three serial devices at user-selected speeds and formats (all can be different). Also can drive two relays (isolated) as well as two N-Channel FETs, for screen control etc.

### NEW! T470 family of controllers

There are 4, 6, 8 and 10 key versions in same standard power-point size. (Was called T450.)

### T460R projector controller with OLED display

The "R" specifies the yellow OLED display. JED can still supply the previously standard backlit LCD display if required, to match existing installations.

### 45 Degree Mounting bases for T430/T440/T460

### T461: 4-channel audio attenuator for T440/T460

1RU 19 inch box with 4 stereo channels of remote audio switching / attenuation.

### T461-R8: audio attenuator, with relays

Adds 8 relays for control of screens, dippers, lighting, video switchers etc.

### T464: Ethernet network interface. Includes PC monitoring software to run on tech-center server

Connects to second serial port of T460. (T461 commands can pass through.) Remotely displays room status, lamp hours, etc, and can remote control room via tech-centre monitoring screen.

### Plug-pack power supply: (Included with T430/T440 in Aust / NZ, but must be ordered separately with T460 if NOT using a T461.)

Small 12v regulated 1Amp switcher with low standby power (MEPS). Australian/NZ power point, flat three-pin system, For all T440, T460/462/465 power needs

## Passive Infra-Red Sensor for run-time reset of T430/T440/T460

Runs from 12 volt PAK12-1A power pack and wires to contacts on back of T460. This turns off room A/V system if staff and students leave the room without closing system down.

## T447 projector interface box for T430, T440 and T460

## T430 projector controller (including plug pack power supply)

## Custom front panel artwork

We can organise custom artwork for front panels, which can include logos and company identification by lettering, call 1300 658 986.

## T440 projector controller (including plug pack power supply)

## JED 439 2-channel USB switcher

Takes two USB device inputs (eg room computer and teacher's laptop) and steers USB control connection to an Electronic Whiteboard.

## JED 443 three channel USB switcher

Takes three USB device inputs (eg room computer, teacher's laptop, student's laptop, of three laptops around a conference room) and steers USB control connection to an Electronic Whiteboard.

## T441 2-channel stereo (or 4 channel mono) audio attenuator for T440/T460

## T462 RS232 controlled dual/quad relay system

## T465 microphone and aux/radio mixer for lecterns and classrooms

## LCD display timer for auto start/stop of projector system

Ideal for museums, art galleries, etc. can operate multiple times per day, with splits for weekends, etc. Timer is panel mount, 71mm on side.

### Audio Visual Solutions

- Consulting • Design
- Installations • Sales
- Maintenance and Hire
