

Wall Mounts

Wall Mount for LCD & Plasma Display

E.A.S.T Video Wall Bracket

The latest application of this type of thinking is an all-new Australian design and manufactured modular East LCD bracket. This clever bracket dramatically simplifies the installation & maintenance of both singular and multi-screen installations. The East bracket is designed to work for installations from a single screen to 100+.

This new bracket features an individual 'Easy Access Service Trigger'. When activated, the 'Easy Access Service Trigger' allows that individual monitor to be released from the grid. Fold down arms allow the screen to be tilted for access to connection terminals.

Wall Mounts for LCD & Plasma Displays – Fixed Boardrooms

Gilkon's unique manufactured silver steel channels allow for ventilation while maintaining a low profile, clean, seamless look. Design includes multiple mounting points for easy site installation. The Gilkon "Slot Lock" design allows the wall frame to be safely secured to the wall. Three sizes for displays up to 65". Larger sizes POA.

Wall Mounts for

Plasma Display – Tilt Adjustable

The Axis by Gilkon Plasma Tilt Adjustable Wall Mount adjusts up to 15 degrees. Suitable for most plasma screen up to 65". Fixed version also available.

Wall Mounted Fixed

Digital Signage Tilt

Wall Mounts for Digital Signage

Developed for the rapidly expanding digital signage market, the Axis "P" Series mounts a plasma or LCD screen in a "Poster" or "Portrait" format.

Available in fixed and tilt adjustable formats with sliding fixing arms and multiple fixing options. Stainless steel available.

Wall Mounts

Wall Mount for LCD & Plasma Display

RAZOR LCD/ Plasma Wall Mount

- ✓ Super slim at only 8mm thin, almost invisible.
- ✓ Manufactured and designed in Australia, the Gilkon RAZOR wall mount is low cost.
- ✓ Ultra fast installation can be completed in as little as 3 minutes.
- ✓ Suitable anchor points on a wall can be located with the specifically designed sliding slot patter.
- ✓ Finished in a knock resistant deep satin black coating.

Single Articulated Arm

Dual Articulated Arm

Plasma Wall Mount - Single Articulated Arm

Designed and manufactured by Gilkon in Australia, the Single Articulated Arm allows you to adjust a wall mounted plasma screen to the ideal viewing position with full 180 degree rotation. The wall plate has multiple anchor slots, allowing greater flexibility when mounting. The arm folds back within the wall plate to minimise installation depth.

Includes discrete push button keyed locks for security.

Plasma Wall Mount - Dual Articulated Arm

Designed and manufactured by Gilkon in Australia, the Dual Articulated Arm allows you to adjust a wall mounted plasma screen to the ideal viewing position with 45 degree tilt both sides.

The wall plate has multiple anchor slots allowing greater flexibility when mounting. Arms fold back within wall plate to minimise installation depth.

Includes discreet push keyed locks for security.

LCD Wall Brackets

A simple, yet effective wall mounting system to suit displays with a VESA mount hole pattern.

Installation is very easy. The rear plate is fixed to the wall and the display simply slots into the plate using the matching M2 housing.

Designed and manufactured by Gilkon in Australia.
