	GV Smart Screen <p>Remote control motorised screens</p> <p>Like the idea of your screen appearing at the press of a button? The Grandview Smart Screen does just that. IR remote supplied as standard, as well as the choice of 12V trigger, relay control, or RS232. Available in 16:9, 16:10, and 4:3 in a range of sizes.</p>		
	GV Large Smart Screen <p>Remote control motorised screens</p> <p>The large screen range starts at 2650mm wide right up to 4400mm wide, and at these sizes you definitely need a motorised screen for ease of use. Being a Smart Screen there's the choice of IR remote, 12V trigger, relay control or RS232. Available in 16:9 and 4:3 aspect ratios.</p>		
	GV Sky-Show Dual Motorised Screen <p>High ceiling solutions</p> <p>Sky-Show is a unique, patented product that solves issues caused by high ceilings when mounting a screen. Two motors are used: one lowers the casing 5 metres down a stainless steel cable. When the casing is in position, the second motor lowers the screen surface. Simple installation, simple integration, simply brilliant.</p>		
	GV Deluxe Manual Pull Down Screen <p>Roll your screen away</p> <p>Need to hide your screen away but not wanting a Smart Screen? The Grandview Deluxe Pull Down has some smarts of its own, with a built in decelerator and braking system, this screen retracts steadily and slowly, stopping at the top. Available in 16:9, 16:10 and 4:3 aspect ratios.</p>		
	GV Classic Pull Down <p>Economical and reliable</p> <p>When budget is king, you can't go past the reliable value of the Grandview Classic Pull Down. Always well priced, this is the ideal choice when you know you need a screen to finish the room but the pressure is on. Available in 16:9 and 4:3 aspect ratios.</p>		
	GV Projector Mounting Options <p>For the perfectly placed projector</p> <p>Every installation needs a projector mount. Choose one that cuts down installation time and gives you flexibility. Grandview mounts are designed to suit most projectors on the market, and are unobtrusive. Low profile and extended drop versions in a choice of black and white are available.</p>		

Why choose Grandview for your work or school?

Excellent product range covering the three most popular aspect ratios – **16:9, 16:10 & 4:3** in the most popular sizes.

Reliable	Reliable products like the Grandview Deluxe Pull Down, with its auto decelerator the screen automatically slows down as it gets towards the casing when being retracted, this prevents damage and extends the life of the screen.
Innovative	Innovative products packed with features that make installation, integration and using the products easy, like the Grandview Smart Screen which offers IR remote, close contact/relay control, RS232, 12V trigger and a manual override switch all onboard as standard with every Smart Screen.
Easy Installation	Did we mention easy installation? The Deluxe Pull Down and Smart Screens have mounting brackets that slide along the length in order to enable the matching of the brackets to ceiling or wall studs.
Unique Products	Unique products like the patented Grandview Sky-Show which has the ability to lower the screen casing by up to 5 metres, before it lowers the screen material itself and is ideal for buildings like churches, school assembly halls, and multifunction rooms. Grandview products are great value and help to stretch your AV budget further.

Testimonials

In Schools	<p>"We like the ease of installation of the Grandview Screens... and we'll continue to buy nothing else but these products in future".</p> <p>School Maintenance Manager, Gosford NSW</p>	Our After Sales Service	<p>"I am simply amazed at the speed of your service and free replacement offer. I did not think service like this existed any more in this age. I shall be telling everyone about your products."</p> <p>DJ, QLD</p>
