

Anti-theft

Tilts up to $\pm 15^\circ$

Easy cable access

FEATURES:

EASY TILTING

The screen can be adjusted $\pm 15^\circ$ to achieve the optimum viewing angle*. Simply loosen the two twist handles, tilt the screen as desired and re-tighten the handles. Other tilt mounts require you to choose from a small number of set positions. But the Venturi VP-T150 Wall Bracket's unique tilting system allows infinite adjustment within the entire tilting range.

(* Tilt range can be affected by larger screen sizes)

ANTI THEFT SECURE MOUNTING

A unique securing method is employed to ensure the screen cannot be removed by unauthorised persons. Once the screen is positioned on the wall plate a discrete locking rod slides neatly between the mounting brackets and the wall plate. Once in place a padlock (not included) can be fitted to the end of the locking rod making removal of the screen virtually impossible.

UNIVERSAL

Easily attaches to most 37" to 80" LED/LCD and Plasma screens weighing up to 75kgs using the supplied hardware kit and without the need for special tools.

STRONG AND ATTRACTIVE

Heavy gauge steel construction is powder coated in an attractive black finish. The stylish and unobtrusive design fits easily into any environment.

QUALITY

The Venturi VP-T150 Wall Bracket is made from quality materials and is covered by a ten year warranty.

PACKAGE INCLUDES:

Two universal tilting mounting brackets, locking rod, wall mounting plate, mounting hardware and assembly instructions.
