

# WHEELCHAIR ACCESSIBLE LECTERNS

## MML-WC-RANGE

### Integrate your audio-visual equipment with ease

#### MULTIMEDIA

Securely store your AV equipment. Select from either 6 or 12 RU storage capacity.

#### HEIGHT ADJUSTABLE

Adjust the vertical height by the simple push of a button.

#### ADD OPTIONS

Select from a range of options to customize your lectern.

#### ADD YOUR BRAND

Enhance your professional appearance by adding your logo and colours.

# WHEELCHAIR ACCESSIBLE

Stable & adjustable for wheelchair users

## SO MANY OPTIONS...

Switch between wheelchair and non-wheelchair users, thanks to electronic height adjustment that adjusts simply by the push of a button. Feel comfortable with generous space to manoeuvre a wheelchair into the ideal position.

For the audio visual technician, there is 360° access to equipment mounted in the top rail rack. Removable leg and base covers grant access to internal cables. Ample ventilation eliminates the need for cooling fans.

Choose between two models that offer varying benchtop sizes and up to 12 RUs storage capacity. Maximise your branding options by upgrading to the extra large modesty and logo panel.

Equip your lectern with custom benchtop cutouts to reduce installation at your end. Add the optional shock mounted microphone, reading light, monitor arms, power switch, pull out drawer, and whatever else you need!

Shipped fully assembled Australia wide.
