

iTalk

Personal Backpack Amplifier System

General Features

- Compact, lightweight, loud and mobile. Suitable for indoor/outdoor applications.
- Built-in charging circuitry enables simultaneous charging and operating.
- High efficiency Class D amplifier produces 5W RMS audio output (maximum music output 10W)
- Speaker system: 3 ¼" full-range.
- Tone control.
- LED indicates low battery power.
- Can be worn around the waist or over the shoulder.
- Up to 8~10 hours of vocal operation per charge.
- Choice of lapel or headset microphone . Completely hands free!
- Φ 3.5mm Input jack for Mic/Line input, as well as multimedia player and PC presentation.
- Speaker pouch for easy carrying.

Specifications

Model	iTalk
Output power	10W, 5W(RMS) 4 Ω load (class-D)
Speaker system	3 ¼" full range
Audio input	Mic / Line in
T.H.D.	< 0.5%
Freq. response	50Hz-16KHz \pm 3dB
Power supply	100-240V AC / 12V DC, 1.6A
Battery spec	1.2V, 2.5A
Battery Q'ty	4
Operating time	4 hrs in music, 8-10 hrs in speech
Charging time	about 6-8 hrs
Dimension (mm)	105(H) x 115(W) x 195(D)
Weight (kg)	0.65
Patent	Taiwan, China
Approval	CE, RoHS
