**Signage has never been simpler...**

Turn any touchscreen or display into a noticeboard that can inform, educate and entertain your team and your customers. CommBox Signage is a powerful sales device. Use it to promote new products + services and run promotions. Perfect for all industries wanting direct engagement with their audience. Remotely manage content and deploy to one or many screens in minutes. The in-built content creator is easy and intuitive to use. Build original content or customise one of hundreds of included templates for impactful messages everytime.

All CommBox screens come with 90 days free CommBox Signage and is available to download from the Commbox store. Optimise use of your display by displaying signage on it when not in use.

## IN RETAIL & COMMERCIAL BUSINESSES

### Perfect for all retail & digital signage applications

The 24/7 commercial display is perfect for all retail and digital signage applications with the benefits of built-in Android and OPS.

Add CommBox Signage via the CommBox store, which can also be easily added to any existing screens with the addition of the CommBox signage player. Create impactful signage, quickly and easily with CommBox Signage built-in templates and template creator.

With flexibility to meet any signage requirements, 43" and 55" will be available in portrait and landscape from April 2021 with other sizes coming shortly after that.

Create targeted messaging to passers-by or delight instore shoppers with engaging content scheduled in CommBox signage. Reduce wait time in doctor's surgeries by entertaining and informing your customers with the Commbox commercial display

TURN ANY SPACE INTO A...

# Collaboration Space

## Transform your meeting & training rooms

Cast to the commercial display, mirror back the display to personal devices and broadcast one display to many, our premium screensharing is perfect for the office. Add the OPS PC, camera, mic and speakers for the ultimate video conference set up. View text comfortably that's flicker-free with Blue Light eye-care.

## The perfect VC partner

The CommBox commercial display works with all the leading video conferencing providers. Bundle a commercial display with Jabra, Yealink, Poly, Creston or more. Turn any room into a Teams or Zoom room. Kick off a Webex VC or BlueJeans from the browser. Software agnostic our displays will work with the VC suite of your choice.

## Seamless screensharing

CommBox Displays enable two way mirroring that enhances collaboration in business and team meetings. Present any content, from any device simply and easily, without the need for video cables interconnecting the devices. Connect and share from Windows, Mac and Chrome laptops and personal devices such as phones and tablets. Broadcast the CommBox screen back to other CommBox screens and colleagues or customers devices. Connect up to 35 devices at once, and display up to 4 devices at once.

Put a commercial display onto one of our mobile stands and allow any space to turn into a collaboration space for your team.

COMMBOX DASH MOBILE STAND

Microsoft Teams

and more...

# MOUNTS & ACCESSORIES

## Dash Stand

Perfectly designed for both interactive and display screens up to 65". With a built in shelf above the screen that is perfect for many models of VC camera.

Dash is designed for the office environment and enables any space to be turned into a video conferencing collaboration area simply by wheeling in the dash stand and screen. Dash is great for showrooms or retail spaces. Turn your screen mounted on the Dash stand into mobile signage by adding CommBox signage. The stand can be put together in 6 minutes or less.

## Cadence Stand

The Cadence stand is ideal for business settings. Both stable and robust, it features internal built in cable management that includes power and ethernet. Designer 100mm castors make it easy to manoeuvre through doorways. Built-in height control as well as preset levels provides ultimate flexibility.

## Elegance Stand

The CommBox Elegance Stand is understatedly stylish, designed to complement any corporate space. Move it from front to side of room or room to room as required. This stand offers ultimate flexibility to work, present and collaborate the way you need to. Fits 55" – 86" touchscreens & displays, fixed height with pen shelf.

## Manual Tilt Trolley

Electrically raise and lower your screen and manually adjust the tilt angle. Can tilt into table top, perfect for architectural drafting and creatives. Suitable for screens up to 80" in both Interactive and Display.

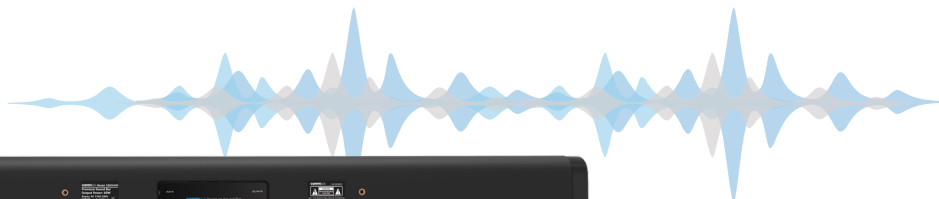

## Invisible Motorised In-Wall Bracket

Experience the ultimate in motorised minimalism. The Motorised In-Wall Bracket is hidden inside the wall, with only the two brushed stainless steel dress plates visible. It provides the elegance and space saving of a fixed wall bracket, but with 500mm of motorised height adjustment.

## PREMIUM AUDIO Maxx Base Technology

The new CommBox Premium SoundBar is an active soundbar with high fidelity audio, reinforced by Maxx Bass Technology and is the ideal audio accessory for Interactive and Display. Connect your Control system directly to the 3.5mm port on the rear of the SoundBar to control volume, input and power.

# The CommBox EXPERIENCE

Don't invest in retail TV's that are not durable enough for schools or businesses. Trust CommBox with over 45 years experience to provide you with a display that is fit for purpose and built to last. Backed by our 5 year commercial warranty.

## Hassle Free Management

Over the Air (OTA) updates - Your CommBox Display can update automatically, or at the click of a button, you set your preference.

## CommBox's legendary support

Rest at ease with real support, when you need it. CommBox's Australian based Support team are employed by, trained by and experts in CommBox. Forget frustrating phone calls, where the person meant to be assisting has less of a clue than you. Our support team make things easy. Whether the support you require is remote or requires a site visit.

## Financing & Bundles available

Looking for affordable financing options? CommBox and our distributor network can provide competitive financing options, that moves your investment in CommBox Commercial displays from cap ex to op ex.

## Reduce your investment in new displays with the **CommBox buy back program**

Responsibly recycle your old desktops, laptops, tablets, projectors and interactive screens, while making money for the items that still have a useful life. CommBox has partnered with an Australian social enterprise, WVTech to offer this service to Australian schools and businesses.
