

North Bayou TW-50 Motorised Height Adjustable Mobile AV Trolley

This specialised stand allows TV screens and touch screens to be presented right down to 750mm from the floor to the centre of the screen, providing input access to very small students or those bound to wheelchairs or mobility aids. At the push of a button the screen can be raised to present to the group at up to 1450mm to the centre of screen.

This new model also includes 300mm handles on each side for easier two handed movement around the room by two people as well as a 405mm x 270mm rear shelf for a notebook or other accessories. There are also two pockets for touch screen accessories like pens and erasers.

Mounted on 4 heavy duty lockable 100mm castors it provides for easy mobility around the presentation space.
